### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. During a telephone conversation with Mr. K. Haas on 9/27/04 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-13, 28, and 29.

3. The application has been amended as follows:

#### **In the Claims:**

This application is in condition for allowance except for the presence of claims directed to inventions non-elected without traverse. Accordingly, claims 14-27 and 30-35 have been cancelled.

4. The following is an examiner's statement of reasons for allowance: Claims 1-13, 28, and 29 are considered allowable over the prior art because none of the references of record alone or in combination suggest, disclose, or teach a system for forced intra-coding of a digital video signal comprising macroblock arrays containing a list of macroblock identifiers corresponding to macroblock locations; an intra-refresh macroblock location identification element for selecting the identifiers; and comparison logic for comparing the identifiers with an identifier of a current macroblock all together as claimed. The closest prior art, Jeong et al (5,491,509), Brailean et al (5,724,369),

and Pauls (6,025,888) disclose conventional intra-coding devices, either singularly or in combination, fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
